Contact Us About Emergency Response to the Gold King Mine Release form

Cynthia Peterson left her position on the GKM and is on vacation. The Cynthia he is talking about in his e:Mail is me. Because I sat in on the call with their Business Group, they think I am their point person. I have no idea who is the EPA contact person for this, but David should know.

Cindy,

This falls under the Comptroller and Emergency Response. HR doesn't have any input for this. I would recommend talking to David Ostrander, Joe and Ben Bielenberg. Where is Cynthia?

Mike

Joe, Cynthia,

This is the answer I got when I submitted my questions online (below).

Let me review what has happened in the last 24 hours. A business called me and asked me two specific questions about Form 95. I went to the web page that EPA had prepared, didn't find the answers, so I wrote to Cynthia as our local contact.

Cynthia forwarded me to you Joe. It is the same answer I got from Joe to get the answers. Joe, you sent me back to the same web page I had already reviewed. You told me about the "contact us" form on that page, so I filled it out with the same two questions I asked you.

This morning, I got a response from this "contact us" form that sent me back to the same page I had already reviewed, already been referred to by Joe, and where the "contact us" button is located at which I submitted my questions. They also said I should call a phone number... which I am fairly certain at this point is simply going to point me back to the same page we keep circling around and is NOT. HELPING.

In my line of work, this is what's known as a "runaround". I want an answer to the two questions below. If you are unwilling to help, just say you can't help and I will be sure to let the business know- a business that lost almost 100% of its activity in August and September as a result of a spill caused by EPA- that EPA is unwilling assist them.

I have cc'd our local congressional representatives so they can see how frustrating this is and how unhelpful EPA has been in trying to get what should be two simple answers to a business that had had to shutter its doors as a result of EPA.

Will you give me answers to the two questions below, or not?

-Roger

Hello,

The US EPA has prepared the following information resource. Please note that questions not answered on the website should be directed to the EPA Hotline: 844-607-9700 (toll-free).

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>

Regular updates will be posted as they are available.

EPA Hotline: 844-607-9700 (toll-free)

Comments:

With regard to the Gold King Mine Spill in Southwest Colorado:

1) When claiming a business loss (lost profit), should the claim go in
Line 12A (Property damage) or 12B (Personal injury)? There is no clear line on Form 95 for business
loss.

2) If a person submits a Form 95 claim this year, then suffers further
business losses next year, can they file another Form 95 for the business losses next year?
